Hyatt is a leading hospitality brand that strongly believes in the importance of family. The main mission Hyatt wanted to achieve was building a platform from which people can build strong communities and thrive as one. The ultimate challenge for Hyatt was gaining a global and prominent presence, to-the-point information^o n leads and a seamless online hotel booking reservation system.

Being a digital powerhouse, Silicon ICT Solutions was successful in delivering a phenomenal cross-platform website to Hyatt that gained 57% organic traffic and a global presence in over 65 countries.

Nogodi approached Silicon ICT Solutions to develop an application that would mediate buyers and sellers and ensure secure transactions.

The smart mediator application allows the buyers to buy from unknown sellers and make secure transactions as the app gives direct access without any third-party intervention. It guarantees a safe transaction where the money will be held until the buyer is satisfied with the purchase.

The key to an effective brand strategy is to recognize its core values, consumers & the result that you want to achieve. To find out the idea & story behind Karen Millen's company, our brand analysts conducted extensive research & analysis & carried out a well thought-out & expertly designed online advertisement & marketing strategy. Through our in-depth research & analysis of the brand, its goals, its market, the issues & limitations it has, we built an aesthetically & technologically superior ecommerce website.
